

*Congratulations on your engagement!*

My wedding package is inclusive - providing you with all your photography needs!

Included in my package is an engagement session, so we can get to know each other! We can both learn how you are in front of the camera, and give me an idea of the best cues I can use to get the perfect shot!

I will be there for all the time you need me on the day of the wedding! I arrive after hair is done, but before makeup is getting started, and stay with you for the day!

During the reception, I will be photographing the speeches, first dances, cake cutting - and a few of those fun dances!!

My photos are edited, and you receive a digital file with all the images that make the cut!

There is never a limit on how many photos I edit, nor is there a copyright on my files - so you can print them and use them however you please!

Dates go VERY fast, so please email me to inquire about your wedding day!
